Chapter 1 Introduction

1.1 Purpose and Scope

The purpose of the Test Record document is to record the actual result, and pass / fail criteria of each test case that has been designed in the test plan and executed for the Artistverse system.

1.2 Acronyms and Definitions

Acronyms

URS	User Requirement Specification
UTC	Unit Test Case
STC	System Test Case
TD	Test Data

Definition

Name	Definition
IEEE	Institute for Electrical and Electronics Engineers. Biggest global interest group for engineers of different branches and computer scientists. [1]
Plan	A document series of tasks requires meeting an objective, typically including the associated schedule, budget, resources, organizational description and work breakdown structure. [1]
Feature	Feature Transformation of input parameters to output parameters based on a specified algorithm. It describes the functionality of the product in the language of the product. Used for requirements analysis, design, coding, testing or maintenance. [1]
Project Management	The application of knowledge, skills, tools, and techniques to project activities in order to meet or exceed stakeholder needs and expectations from a project. [1]

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	5
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

Project Plan	A formal, approved document used to guide both project execution and project control. The primary uses of the project plan are to document planning assumptions and the decision, to facilitate communication among stakeholders, and to document approved scope, cost, and schedule baseline. [1]
Risk	An uncertain event or condition that, if it occurs, has a positive or negative effect on a project's objectives. It is a function of the probability of occurrence of a given threat's occurrence. [1]
Risk Management	The systematic application of management policies, procedures and practices to the tasks of identifying, analyzing, evaluating, treating and monitoring risk. [1]
System Testing	Testing conducted on a complete and integrated system for evaluate the system's compliance with its specified requirements. [1]
Unit Test	A test of individual programs or modules in order to remove a design or programming errors. [1]
Traceability	The ability to trace the history, application or location of an item or activity, or work products or activities, by means of recorded identification. The establishment and maintenance of relationships between such items. Horizontal traceability describes the relationship between work products of the same type (e.g. Customer requirements). Vertical traceability describes the relationship between work products, which build or derived from each other (e.g., from customer requirements to qualification test cases). Bidirectional traceability allows to directly following relationships in both directions. [1]
Use Case	A use case is a description of a specific interaction between a system and its users to accomplish a particular goal or task. It outlines the sequence of steps or actions that a user performs in the system and describes the system's responses to those actions. Use cases help to identify and define the functional requirements of a system from the perspective of its users.

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	6
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

Activity Diagram	Activity diagram is another important behavioral diagram in UML diagram to describe dynamic aspects of the system. Activity diagram is essentially an advanced version of flow chart that modeling the flow from one activity to another activity.

			stars above In your arms, I found my place My love, my love, brighter than the moonlit lace In your embrace, I found my grace" }	
--	--	--	--	--

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	9
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

UTC-02: Test generate_lyrics_mood

Test ID: UTC-02

Test Function: generate_lyrics_mood(prompt,mood,language)

Test Case:

ID	Description	Input	Expected Result	result
1	Verify that the system generates lyrics based on the input provided by the songwriter.	{ "prompt": "My love", "mood": "Romantic", "language": "English" }	{ "lyrics": "Verse 1:\nMy love, like a star in the night\nShining bright, your love is my guiding light\nEvery moment with you feels so right\nIn your arms, I find my paradise\nChorus:\nMy love, my love, you're my everything\nIn your embrace, my heart begins to sing\nWith every kiss, my soul takes flight\nYou're the one who makes my world so bright" }	pass
2	Verify that the system displays an error message if the prompt is missing.	{ "prompt": "", "mood": "Romantic", "language": "English" }	{ "errors": { "prompt": "Please input a lyric topic." } }	pass
3	Verify that the system displays an error message if the mood is not selected.	{ "prompt": "My love", "mood": "", "language": "English" }	{ "errors": { "mood": "Please select a mood." } }	pass

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	10
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

		}		
4	Verify that the system displays an error message if the language is not selected.	{ "prompt": "My love", "mood": "Romantic", "language": "" }	{ "errors": { "language": "Please select a language." } }	pass
5	Verify that the system displays an error message if there is no internet connection.	{ "prompt": "My love", "mood": "Romantic", "language": "English" }	{ "error": "Internet no connection", "message": "Unable to compose lyrics" }	pass

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	11
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

UTC-03: Test generate_lyrics_artist

Test ID: UTC-03

Test Function: generate_lyrics_artist(prompt,artist,language)

Test Cases:

ID	Description	Input	Expected Result	result
1	Verify that the system generates lyrics based on the input provided by the songwriter.	{ "prompt": "My love", "artist": "Taylor Swift", "language": "English" }	{ "lyrics": "Verse 1:\nYou were the one I thought I'd never find\nCaught in a moment, lost in your eyes\nEvery little thing about you, every little smile\nI knew right then, you were worth the while\nPre-Chorus:\nIt's like I'm living in a fairytale\nWith you by my side, I'll never fail\nYou're the melody in my heart's refrain\nI'm falling for you, again and again\nChorus:\nMy love, like a Taylor Swift song\nIn every word, you belong\nYou're the sweetest melody, my favorite line\nMy love, in every song, you shine\nVerse 2:\nYou're the hand that fits perfectly in mine\nIn your arms, all the stars align\nEvery time you whisper my name\nIt's like the whole world's never the same\nPre-Chorus:\nIt's like I'm living in a fairytale\nWith you by my side, I'll never fail\nYou're the melody in my heart's refrain\nI'm falling for you, again and again\nChorus:\nMy love, like a Taylor Swift song\nIn every word, you belong\nYou're the sweetest melody, my favorite"	pass

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	12
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

			line My love, in every song, you shine Bridge: Every beat, every rhyme, you're my sweetest inspiration In every love ballad, you're my perfect creation Chorus: My love, like a Taylor Swift song In every word, you belong You're the sweetest melody, my favorite line My love, in every song, you shine" }	
--	--	--	---	--

Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

UTC-04: Test validateForm()

Test ID: UTC-04

Test Function: validateForm()

Test Cases:

ID	Description	Input	Expected Result	result
1	When all fields (prompt, artist, and language) are empty, the validateForm function should return false and set the errors object with appropriate error messages for each missing field.	this.prompt = ""; this.artist = ""; this.language = "";	this.errors = { prompt: "Please input a lyric topic.", artist: "Please select an artist.", language: "Please select a language." }; return false;	pass
2	When the prompt field is empty but artist and language fields are filled, the validateForm function should return false and set the errors object with an appropriate error message for the missing prompt field.	this.prompt = ""; this.artist = 'Taylor swift'; this.language = 'English';	this.errors = { prompt: "Please input a lyric topic." }; return false;	pass
3	When the artist field is empty but prompt and language fields are filled, the validateForm function should return false and set the errors object with an appropriate error message for	this.prompt = 'Love'; this.artist = ""; this.language = 'English';	this.errors = { artist: "Please select an artist." }; return false;	pass

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	14
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

	the missing artist field.			
4	When the language field is empty but prompt and artist fields are filled, the validateForm function should return false and set the errors object with an appropriate error message for the missing language field.	this.prompt = 'Love'; this.artist = 'Taylor swift'; this.language = ";	this.errors = { language: "Please select a language." }; return false;	pass

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	15
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

UTC-05: Save lyrics

Test ID: UTC-05

Test Function: saveLyrics()

Test Cases:

ID	Description	Input	Expected Result	result
1	Verify that the generated lyrics are saved to the local computer in a .txt file when the "Save" button is clicked.	1. Generate lyrics using UC-02, UC-03, or UC-04. 2. Display the generated lyrics to the songwriter. 3. The songwriter clicks the "Save" button.	- The .txt file containing the generated lyrics is saved to the local computer. - No error messages are displayed.	pass
2	Verify that the "Save" button is displayed after the lyrics are generated.	1. Generate lyrics using UC-02, UC-03, or UC-04. 2. Display the generated lyrics to the songwriter.	- The "Save" button is visible and clickable.	pass
3	Verify that an error message is displayed if there is no internet connection when trying to save the lyrics.	1. Generate lyrics using UC-02, UC-03, or UC-04. 2. Display the generated lyrics to the songwriter. 3. The songwriter clicks the "Save" button.	- An error message "Unable to save lyrics" is displayed. - The use case ends without saving the lyrics.	pass

Test ID: UTC-01

Test Function: analyzeLyrics(lyrics)

Return Type: String

Test Cases:

ID	Description	Input	Expected Result	Result
1	Verify that the system analyze valid lyrics and provide analysis	{ "lyrics": "[Verse 1] When you were here before Couldn't look you in the eye You're just like an angel Your skin makes me cry You float like a feather In a beautiful world I wish I was special You're so fuckin' special [Chorus] But I'm a creep, I'm a weirdo What the hell am I doin' here? I don't belong here [Verse 2] I don't care if it hurts I wanna have control I want a perfect body I want a perfect soul I want you to notice When I'm not around You're so fuckin' special"	{ "analysis": "Your lyrics suggest a sense of longing and an introspective, melancholic mood. Here's a suggestion for a musical interpretation:\n\n- Chords: The song could be accompanied by simple, arpeggiated chords, such as G, B, C, and Cm, to capture the emotional depth of the lyrics.\n\n- Key: The song could be in the key of G major, providing a melancholic yet hopeful feel.\n\n- Time Signature: The lyrics lend themselves well to a 4/4 time signature, allowing for a comfortable and natural flow of the melody.\n\n- Tempo: A slow tempo, around 60-70 beats per minute,	pass

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	28
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

		I wish I was special [Chorus] But I'm a creep, I'm a weirdo What the hell am I doin' here? I don't belong here Oh-oh, oh-oh" }	would enhance the emotional impact of the lyrics and the contemplative nature of the song.\n\n- Musical Information: The verses could feature a minimalistic, gentle guitar arpeggio accompanied by a melancholic vocal melody. The chorus might build with a slightly fuller arrangement, adding gentle percussion and additional instrumentation to convey the emotional intensity. Overall, the music should capture the vulnerability and longing expressed in the lyrics." }

Chapter 4 System Test Record

4.1 Progress I

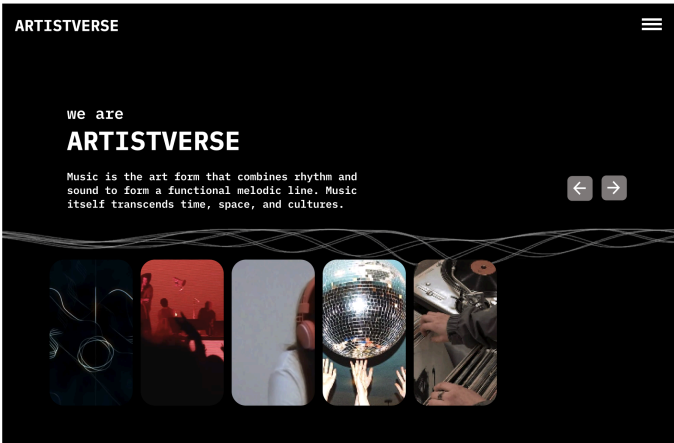

STC-01: Access Lyric Generation Options

Description: This system verifies that the navbar and lyrics generator page correctly display options for the songwriter to compose lyrics based on various criteria, including genre, mood, and artist style.

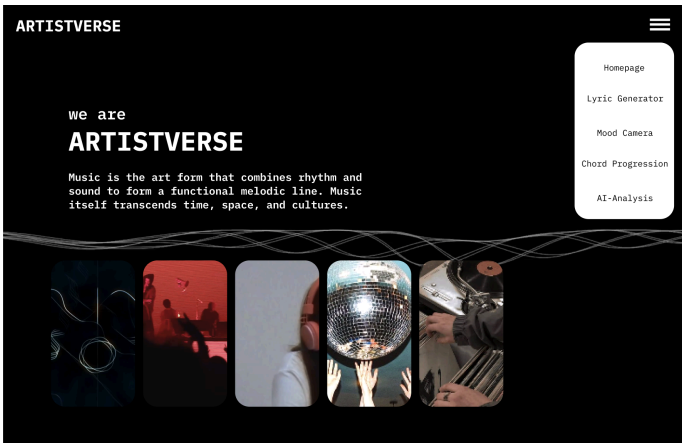

Prepared Data:

Test script:

- 1. Open the Artistverse website in a web browser.

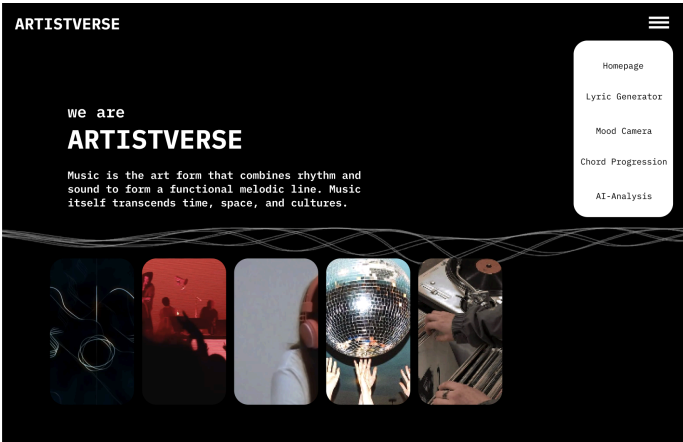

- 2. Click the "navbar-toggler-icon" button.

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	32
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

3. The system displays a drop-down menu with options: "Homepage", "Lyric Generator", "Mood Camera", "Chord Progression", and "AI-Analysis".

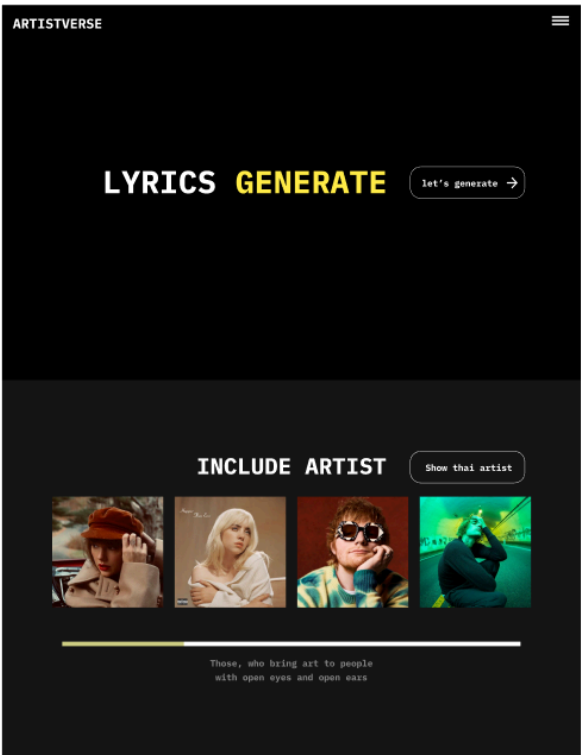

4. Select "Lyric Generator" from the dropdown menu.

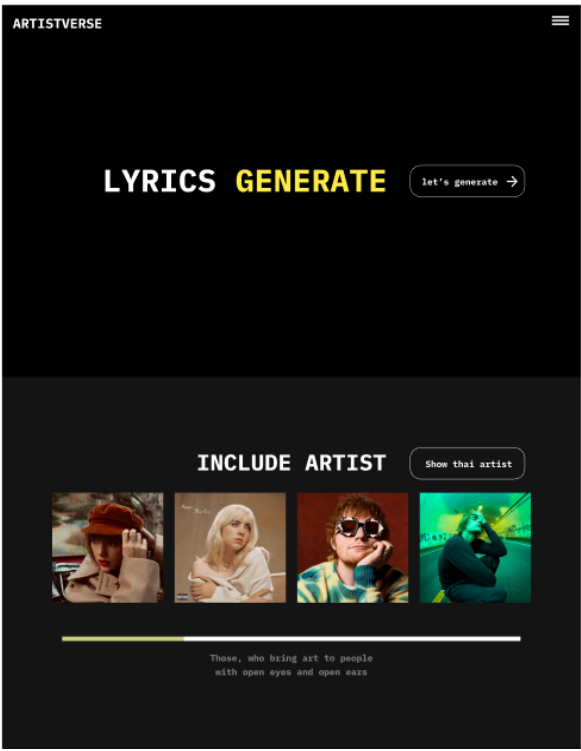

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	33
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

5. The system redirects to the Lyric Generator page.

6. Click on the "Let's Generate" button.

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	34
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

7. The system displays options for composing lyrics: "Lyric Generator by Genre", "Lyric Generator by Mood", and "Lyric Generator by Style Artist".

Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

STC-03: Compose Lyrics by Genre

Description: This system verifies the process of generating lyrics based on a selected genre using the Lyric Generator feature.

Prepared Data: -

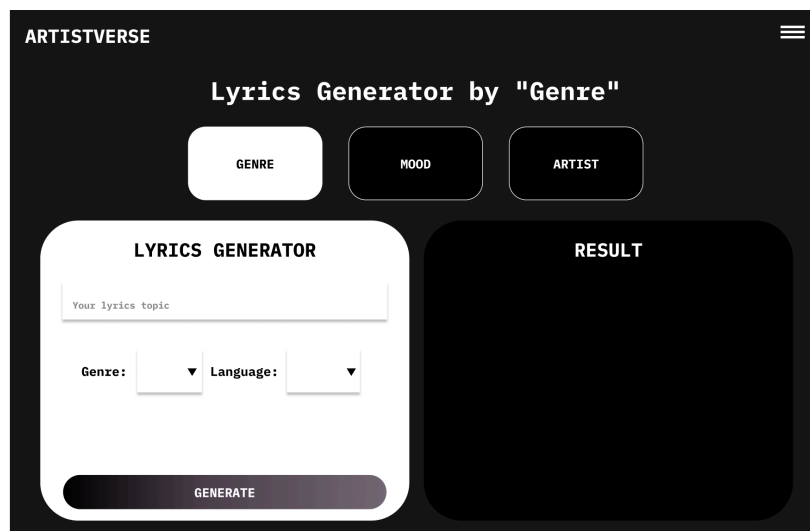

Test script:

1. The system displays Lyric Generator Page Options.

The screenshot shows the 'Lyrics Generator by "Genre"' interface. At the top, there are three buttons: 'GENRE', 'MOOD', and 'ARTIST'. Below these, the 'LYRICS GENERATOR' section contains a text input field labeled 'Your lyrics topic', two dropdown menus labeled 'Genze:' and 'Language:', and a 'GENERATE' button. To the right is a large 'RESULT' area.

2. Select "Lyric Generator by Genre"

This is a duplicate of the previous screenshot, showing the 'Lyrics Generator by Genre' interface with the 'GENRE' button selected.

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	41
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

3. Fill in the required information in the form.
4. Click on the "GENERATE" button to start generating lyrics.

Test case:

No	Description	Input	Expected Result	result
1	Provide information in the form.	- Lyric topic: "My love" - Genre: Select "pop" from the dropdown - Language: Select "English" from the dropdown	The generated lyrics are displayed on the page based on the provided inputs.	pass
2	Verify Error Handling (Missing Fields - All Empty)	- Lyric topic: "" - Genre: "" - Language: ""	The system displays an error message indicating the missing fields ("Please input a lyric topic.", "Please select genre.", "Please select a language.").	pass

STC-04: Compose Lyrics by Mood

Description: This system verifies the process of generating lyrics based on a selected mood using the Lyric Generator feature.

Prepared Data:

Test script:

1. The system displays Lyric Generator Page Options.

The screenshot shows the 'Lyrics Generator by "Genre"' interface. At the top, the 'ARTISTVERSE' logo is on the left and a hamburger menu is on the right. Below the title, there are three buttons: 'GENRE' (highlighted in white), 'MOOD', and 'ARTIST'. The main area is divided into two sections: 'LYRICS GENERATOR' on the left and 'RESULT' on the right. The 'LYRICS GENERATOR' section contains a text input field labeled 'Your lyrics topic', two dropdown menus labeled 'Genze:' and 'Language:', and a 'GENERATE' button at the bottom. The 'RESULT' section is currently empty.

2. Select "Lyric Generator by Mood"

The screenshot shows the 'Lyrics Generator by "Mood"' interface. The layout is identical to the previous one, but the 'MOOD' button is now highlighted in white, and the 'GENRE' button is dark. The 'LYRICS GENERATOR' section contains a text input field labeled 'Your lyrics topic', two dropdown menus labeled 'Mood:' and 'Language:', and a 'GENERATE' button at the bottom. The 'RESULT' section is currently empty.

2. System redirects to the Camera Mood page.

3. Click the "Capture" button.
4. System receives the facial expression of the songwriter.
5. The system analyzes the facial expression to determine the songwriter's mood.
6. The system displays the detected mood (Happy,Sad,Neutral,Angry,Fearful,Surprised).
7. The system requests a song from the specific mood playlist on Spotify using Spotify API.
8. The system displays the recommended songs with a "Listen on Spotify" button.

Test case:

No	Description	Input	Expected Result	Result
1	Songwriter clicks "Capture" button	Click "Capture" button	System displays the camera view and provides capture button	pass
2	System receives facial expression	Facial expression image	System analyzes facial expression to determine mood	pass
3	Unable to detect mood	Unclear facial expression image	System displays "Mood could not be detected, Try again"	pass

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	52
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

4	Detects mood and recommends song	Clear facial expression image	System displays detected mood and recommended songs	pass
5	Songwriter clicks "reset" button to capture again	Click "reset" button	System clears all input and returns to camera view	pass
6	Songwriter denies camera access	Deny camera access	System ends with failure message	pass

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	53
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

STC-08: Songwriter can select song from recommended playlist to listen on Spotify

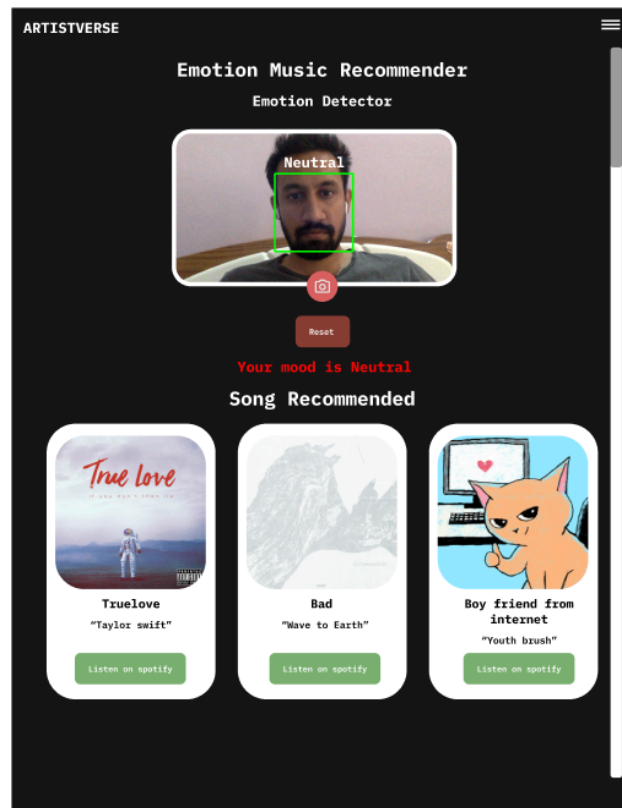

Description: The system testing for songwriter can select a song from the recommended playlist to listen on the Spotify platform.

Prepared Data:

- Songwriter has completely detected the mood and recommended the song.
- Test data Appendix A

Test script:

1. Songwriter selects a song by clicking the "Listen on Spotify" button in the recommended songs on the playlist.

2. The system retrieves the Spotify link of the selected song from the database.
3. The system redirects the songwriter to the Spotify interface using the Spotify link.

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	54
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

Test case:

No	Description	Input	Expected Result	Result
1	Songwriter selects a recommended song	Click "Listen on Spotify" button	System redirects songwriter to Spotify interface with the song	pass
2	System retrieves Spotify link from database	Selected song	System successfully redirects to Spotify interface	pass
3	Songwriter has internet connection	Internet access	System displays error message about internet connectivity	pass
4	Songwriter does not have internet connection	No internet access	System displays error message about internet connectivity	pass

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	55
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

4.2 Progress II

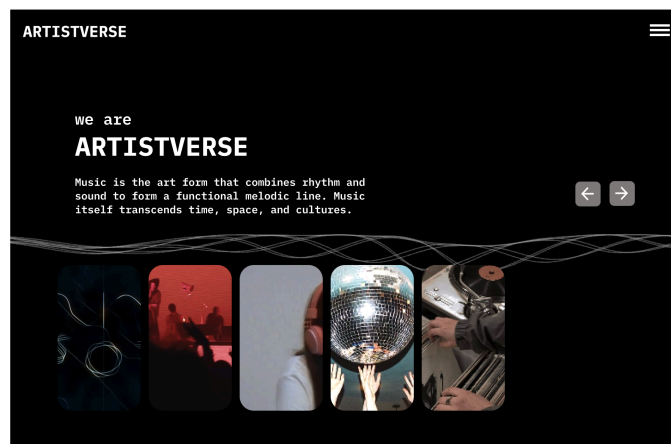

STC-09: Access "Chord Progression" Page

Description: This test case verifies that the songwriter can access the "Chord Progression" page from the navigation menu.

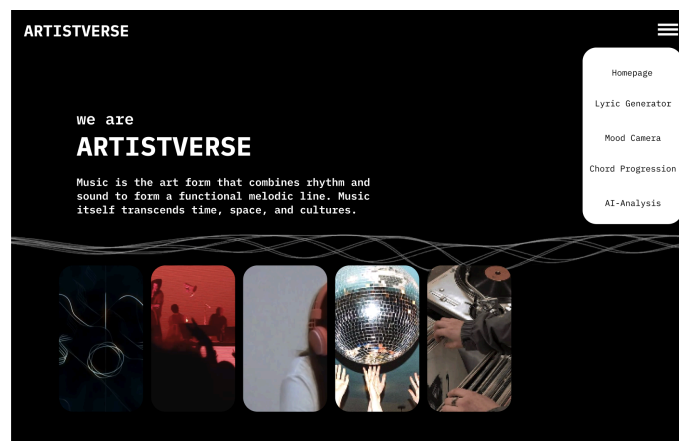

Prepared Data: None

Test script:

1. Open the Artistverse website in a web browser.

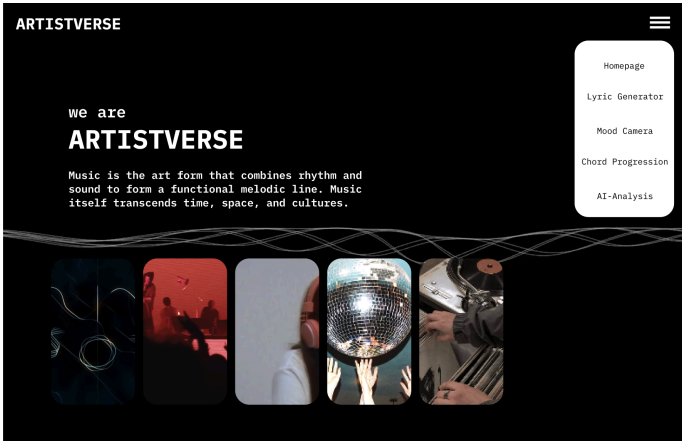

2. Click the "navbar-toggler-icon" button.

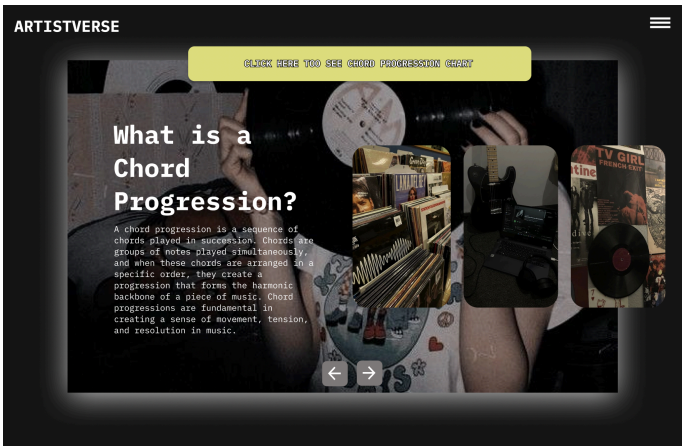

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	56
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

3. The system displays a drop-down menu with options: "Homepage", "Lyric Generator", "Mood Camera", "Chord Progression", and "AI-Analysis".

4. Select "Chord progression" from the dropdown menu.
5. The system displays the Chord Progression page.

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	57
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

Test case:

No	Description	Input	Expected Result	Result
1	Verify Navbar Toggler Icon Display	Open the website in a web browser.	The "navbar-toggler-icon" button is displayed in the top right bar of every page.	pass
2	Verify Dropdown Navbar Display	Click on the "navbar-toggler-icon" button.	A dropdown navbar is displayed.	pass
3	Verify the functionality of the "navbar-toggler-icon" button.	Click the "navbar-toggler-icon" button.	The system displays a drop-down menu with options: "Homepage", "Lyric Generator", "Mood Camera", "Chord Progression", and "AI-Analysis".	pass
4	Verify navigation to the Chord Progression page.	Select "Chord Progression" from the drop-down menu.	The system navigates to the Chord Progression page.	pass

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	58
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

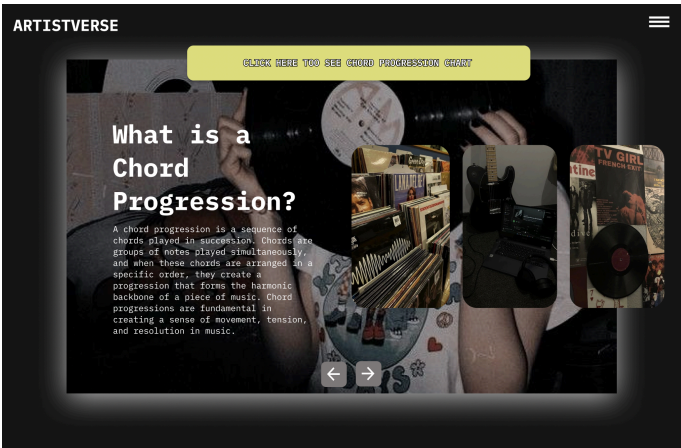

STC-10: Navigate Between Chord Progressions

Description: This test case verifies that the songwriter can navigate between different chord progressions using the "Next" and "Back" buttons.

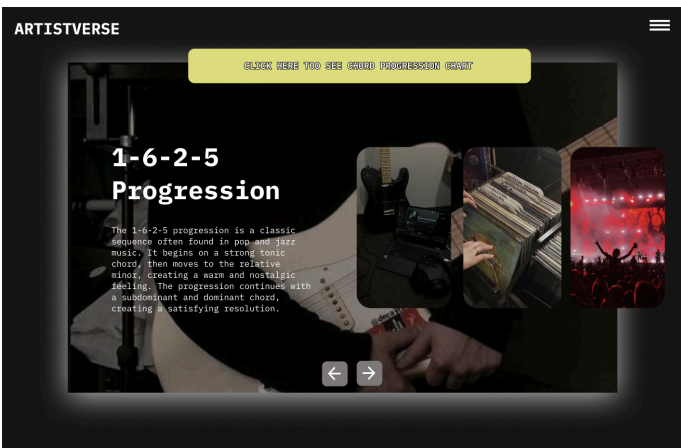

Prepared Data: None

Test script:

- 1. The system displays the main page.

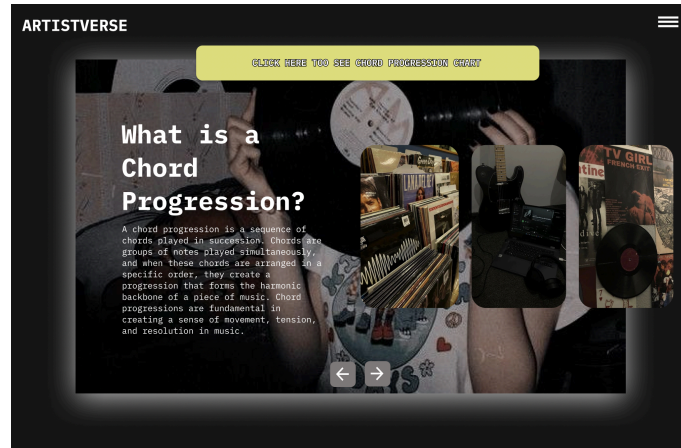

- 2. Click the "Next" button to view the next chord progression.
- 3. The system displays the next chord progression.

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	59
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

4. Click the "Back" button to return to the previous chord progression or the main page.
5. The system displays the previous chord progression or returns to the main page.

Test case:

No	Description	Input	Expected Result	Result
1	Verify that the system displays the main "Chord Progression" page.	Access the "Chord Progression" page.	The main "Chord Progression" page with introductory information is displayed.	pass
2	Verify that clicking the "Next" button displays the next chord progression.	Click the "Next" button on the chord progression page.	The system displays the next chord progression.	pass
3	Verify that the system displays detailed information about the next chord progression.	-	The system displays detailed information about the next chord progression.	pass
4	Verify that clicking the "Back" button returns to the previous chord progression or the main page.	Click the "Back" button on the chord progression page.	The system displays the previous chord progression or returns to the main page.	pass

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	60
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

5	Verify that the system displays the previous chord progression or returns to the main page.	-	The system displays the previous chord progression or the main "Chord Progression" page.	pass
---	---	---	--	------

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	61
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

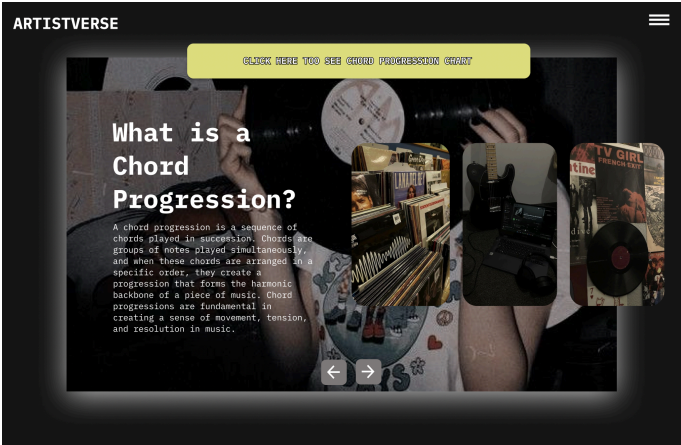

STC-11: View Chord Progression Chart

Description: This test case verifies that the songwriter can view the chord progression chart after accessing the "Chord Progression" page.

Prepared Data: None

Test script:

- 1. The system displays the "CLICK HERE TO SEE CHORD PROGRESSION CHART" button.

- 2. Click the "CLICK HERE TO SEE CHORD PROGRESSION CHART" button.
- 3. The system displays a chart showing various chord progressions and keys.

ARTISTVERSE

STC-15: Input Lyrics and Analyze

Description: This test verifies that the songwriter can input lyrics, analyze them, and display the results correctly.

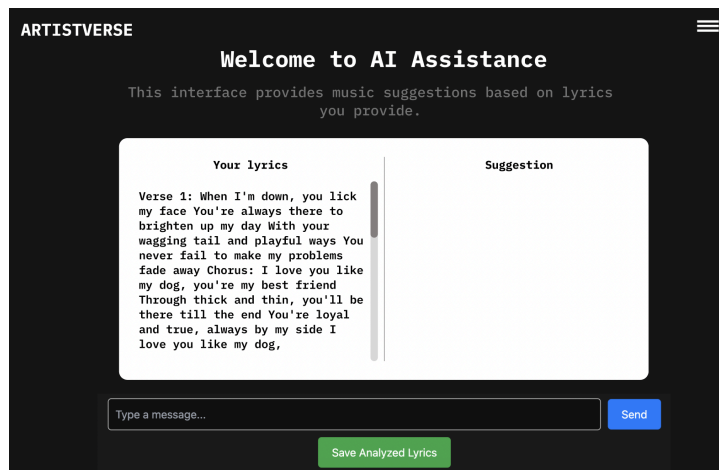

Prepared Data: Sample lyrics for input.

Test script:

1. Input lyrics into the text field.

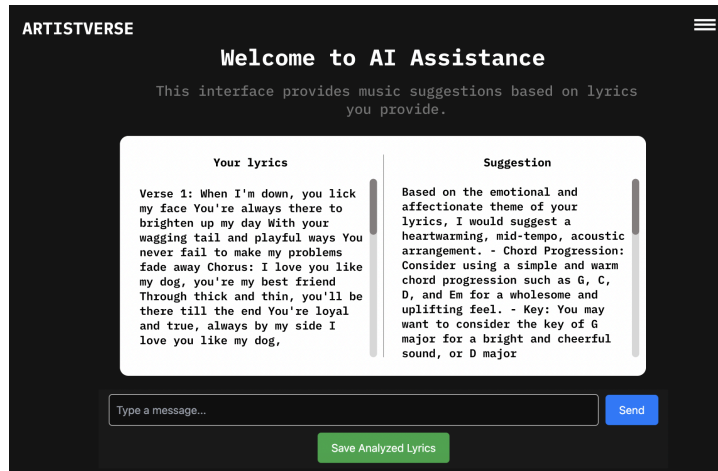

2. Click "Send" to analyze the lyrics.

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	71
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

3. Verify the system displays analysis results.

Test case:

No	Description	Input	Expected Result	Result
1	Input valid lyrics and analyze	[Verse 1] When you were here before Couldn't look you in the eye You're just like an angel Your skin makes me cry You float like a feather In a beautiful world I wish I was special You're so fuckin' special [Chorus] But I'm a creep, I'm a weirdo What the hell am I doin' here? I don't belong here [Verse 2] I don't care if it hurts I wanna have control I	"analysis": "Your lyrics suggest a sense of longing and an introspective, melancholic mood. Here's a suggestion for a musical interpretation:\n\nChords: The song could be accompanied by simple, arpeggiated chords, such as G, B, C, and Cm, to capture the emotional depth of the lyrics.\n\nKey: The song could be in the key of G major, providing a melancholic yet hopeful feel.\n\nTime Signature:	pass

Document Name	Artistverse-TestRecord V.3.0	Owner	NS , WS	Page	72
Document Type	Test Record	Release Date	11/10/2024	Print date	11/10/2024

		want a perfect body I want a perfect soul I want you to notice When I'm not around You're so fuckin' special I wish I was special [Chorus] But I'm a creep, I'm a weirdo What the hell am I doin' here? I don't belong here Oh-oh, oh-oh	The lyrics lend themselves well to a 4/4 time signature, allowing for a comfortable and natural flow of the melody.\n\n- Tempo: A slow tempo, around 60-70 beats per minute, would enhance the emotional impact of the lyrics and the contemplative nature of the song.\n\n- Musical Information: The verses could feature a minimalistic, gentle guitar arpeggio accompanied by a melancholic vocal melody. The chorus might build with a slightly fuller arrangement, adding gentle percussion and additional instrumentation to convey the emotional intensity. Overall, the music should capture the vulnerability and longing expressed in the lyrics."
